

No. 1

Plasma concentration and renal excretion of adenine and 2,8-dihydroxyadenine after administration of adenine in man: <i>A. Ericson, T. Groth, F. Niklasson & C.-H. De Verdier</i>	1
The kynurenine load test, an adjunct to the tryptophan load test: <i>H. Wolf, R. R. Brown & R. A. Arend</i>	9
Effect of natural oestrogens on tryptophan metabolism: evidence for interference of oestrogens with kynureninase: <i>H. Wolf, S. Walter, R. R. Brown & R. A. Arend</i>	15
Viral hepatitis in Danish clinical chemical laboratories 1968-1978: incidence rates, aetiology and risk factors: <i>P. Skinhøj</i>	23
Influence of plasma potassium concentration on the capacity for sodium reabsorption in the diluting segment of the kidney: <i>T. Monclair, O. Sejersted & F. Küll</i>	27
An improved co-precipitation assay for determination of thyroglobulin antibodies: <i>J. Date, U. Feldt-Rasmussen, P. H. Petersen & K. Bech</i>	37
High-energy phosphate compounds in human slow-twitch and fast-twitch muscle fibres: <i>S. Rehunen & M. Härkönen</i>	45
Changes in the composition of fatty acids of total lipids in various tissues and serum due to physical training and food restriction in the rat: <i>A. Wirth, C. C. Heuck, G. Holm & P. Björntorp</i>	55
The effect of free fatty acids on oxygen consumption in man: the free fatty acid hypothesis: <i>J. K. Kjekshus, E. Ellekjaer & P. Rinde</i>	63
Subunit exchange between human and dog prealbumins: <i>G. Fex & B. Hansson</i>	71
External quality control in haematological morphology: a method to assess the performance of an individual laboratory and changes in it: <i>A. Rajamäki</i>	79
Urinary excretion of position isomers type III in normal man and a series of different types of porphyrias: <i>L. Eriksen</i>	85
Serum insulin response to oral glucose load during a dietary intervention trial in healthy coronary high risk men: the Oslo Study: <i>I. Hjermann, P. Leren, N. Norman, A. Helgeland & I. Holme</i>	89

Technical Note

Identification of 1,5-anhydroglucitol in thin-layer chromatograms: <i>E. Pitkänen, S. Purokoski, K. Lajunen & U. Miettinen</i>	95
--	----

No. 2

Maximal oxygen consumption rate in patients with bronchial asthma—the effect of β_2 -adrenoreceptor stimulation: <i>T. Ingemann-Hansen, A. Bundgaard, J. Halkjær-Kristensen, J. Siggaard-Andersen & B. Weeke</i>	99
The effect of repeated supine exercise on exercise tolerance and left ventricular pump function in patients with angina pectoris: <i>P. Carlsens</i>	105
The use of an angiotensin II antagonist (saralasin) as an adjunct during renal vein catheterization: <i>H. Ibsen, J. Giese, A. Rabøl & A. M. Kappelgaard</i>	115
Filtration as the main mechanism of increased protein extravasation in liver cirrhosis: <i>J. H. Henriksen, H.-H. Parving, N. A. Lassen & K. Winkler</i>	121
Light chain polymerism in normal individuals, in patients with severe proteinuria and in normals with inhibited tubular protein reabsorption by lysine: <i>K. Sølling</i>	129
Skin temperature and subcutaneous adipose blood flow in man: <i>A. Astrup, J. Bülow & J. Madsen</i>	135
Studies on the fat emulsion Intralipid® I Association of serum proteins to Intralipid® triglyceride particles (ITP): <i>L. A. Carlson</i>	139
Serum 25-hydroxyvitamin D levels and vitamin D intake in healthy young adults in Britain and Denmark: <i>E. Lester, R. K. Skinner, A. Y. Foo, B. Lund & O. H. Sorensen</i>	145
DDAVP (1-desamino-8-D-arginine-vasopressin) treatment of lithium-induced polyuria in the rat: <i>S. Christensen</i>	151
Adenylate cyclase activity in human liver membranes correlated to insulin release and glucose tolerance: <i>B. Israelsson</i>	159
Plasma high-density lipoprotein cholesterol and hepatic cytochrome P-450 concentrations in epileptics undergoing anticonvulsant treatment: <i>P. V. Luoma, E.-A. Sotaniemi, R. O. Pelkonen & V. Myllylä</i>	163
A simple routine assay for serum urea using immobilized urease: <i>C. Borrebaeck & J. Börjeson</i>	169
Changes of urinary kallikrein and kinin excretions induced by adrenalin infusion in conscious dogs: <i>U. B. Olsen</i>	173
Acid glutathione S-transferase from human liver: preliminary report: <i>K. Koskelo & E. Valmet</i>	179
Effect of zinc on protoporphyrin induced photohaemolysis: <i>S. Sandberg, A. Brun, G. Hovding, M. Bjordal & I. Romslo</i>	185
Radioimmunoassay for tricyclic antidepressants: <i>R. Virtanen</i>	191

No. 3

Editorials

Do barbiturates protect against ischemic brain damage?	199
Barbiturate protection in focal cerebral ischemia: <i>Jens Astrup</i>	201
Barbiturate protection against ischemic brain damage: <i>Petter A. Steen</i>	205
Barbiturate protection against ischemic brain damage: <i>Hans Renck</i>	209
Hyperkalemic periodic paralysis. Relationships between changes in plasma water, electrolytes, insulin and catecholamines during attacks: <i>T. Clausen, P. Wang, H. Ørskov & O. Kristensen</i>	211
Fibrinogen Copenhagen: an abnormal fibrinogen with defective polymerization and release of fibrinopeptide A, but normal adsorption of plasminogen: <i>M. S. Hansen, I. Clemmensen & D. Winther</i>	221
The vitamin D status of man at 70° north: <i>T. Vik, K. Try & J. H. Strømme</i>	227
The influence of paraquat on the <i>in vivo</i> incorporation of lecithin precursors in lung tissue and 'alveolar' lecithin: <i>Eva Malmquist</i>	233
Alphalipoprotein cholesterol levels in relation to acute myocardial infarction and its risk factors: <i>O. Wiklund, G. Fager, I. H. Craig, C.-E. Wilhelmsson, A. Vedin, S.-O. Olofsson G. Bondjers & L. Wilhelmsen</i>	239
External quality control in blood transfusion seriology: results from the Finnish proficiency testing programme in immunohaematology, 1976-1978: <i>A. Rajamäki & A. Pirkola</i> ...	249
Studies on the protein composition of human serum very low density lipoproteins with particular reference to the presence or absence of late pre- β lipoprotein (Lp β): <i>L. Holmquist L. A. Carlson & K. Carlson</i>	253
Falsely negative urinary leucocyte counts due to delayed examination: <i>H. Kierkegaard, U. Feldt-Rasmussen, M. Hørdér, H.-J. Andersen & P. J. Jørgensen</i>	259
Thyroid hormone autoantibodies in a case of Hashimoto's disease: <i>T. Færch, P. E. Højslet, C. Mose & P. Pøby</i>	263
Intracellular localization of palmitoyl-CoA hydrolase and palmitoyl-CoA synthetase in human blood platelets and liver: <i>R. K. Berge, S. E. Vollset & M. Farstad</i>	271
Over-estimation of glomerular filtration rate by single injection [^{51}Cr]EDTA plasma clearance determination in patients with ascites: <i>J. H. Henriksen, J. Brøchner-Mortensen, A. Malchow-Møller & P. Schlichting</i>	279

Technical Notes

Haemoglobin determination without cyanide on Hemalog-8: <i>Y. Bergqvist, S. Eckerbom, L. Funding & L.-I. Ståbi</i>	285
Radioimmunoassay compared to an enzymatic method for serum bile acid determination: <i>Kickan Samuelson</i>	289
Rapid quantitative determination of C-reactive protein using laser-nephelometer: <i>A. Harmoinen, O. Hällström & P. Grönroos</i>	293

No. 4

Stability of human plasma catecholamines: <i>J. Pettersson, E. Hussi & J. Jänne</i>	297
Turbidity as a cause of error in the L-alanine transferase (ALAT) method: <i>K. Try</i>	305
Liberation of a fibrinogenic factor from human blood monocytes, ascites cells, cultured histiocytes and transformed mouse macrophages by treatment with SiO ₂ : <i>M. Aalto, E. Kulonen, T. Rönnemaa, C. Sundström & J. Vilpo</i>	311
Endogenous carbon monoxide production after bicycle exercise in healthy subjects and in patients with hereditary sperocytosis: <i>B. Werner & J. Lindahl</i>	319
Angiotensin II blockade during combined thiazide- β -blocker treatment: <i>H. Ibsen, A. Leth, A. McNair, N. J. Christensen & J. Giese</i>	325
Plasma noradrenaline concentration in hypertensive and normotensive forty-year-old individuals: relationship to plasma renin concentration: <i>H. Ibsen, N. J. Christensen, H. Hollnagel A. Leth, A. M. Kappelgaard & J. Giese</i>	333
High density lipoprotein cholesterol, total cholesterol and triglycerides in serum after a single exposure to prolonged heavy exercise: <i>S. C. Enger, S. B. Strømme & H. Refsum</i>	341
Determination of functional residual capacity with 133-Xenon radiospirometry. Comparison with body plethysmography and helium spirometry. Effect of body position: <i>K. Kauppinen-Walin, A. R. A. Sovijärvi, A. Muittari & A. Uusitalo</i>	347
Importance of flow and haematocrit for metabolic function of perfused rat liver: <i>S. Keiding, H. Vilstrup & L. Hansen</i>	355
Enzyme activities, fibre types and capillarization in calf muscles of patients with intermittent claudication: <i>J. Henriksson, E. Nygaard, J. Andersson & B. Eklöf</i>	361
Praecordial ECG-mapping in acute anterior myocardial infarction: the variability of ST segment, Q and R waves: <i>K. Thygesen, M. Hørdér, P. Hyltoft Petersen & B. Lyager Nielsen</i>	371
Diuretic effect of secretin in man: <i>H. L. Waldum, U. Aanstad, P. G. Burhol & A. Berstad</i>	381

Technical Notes

Detection of hyperlipidemia by semiquantitative fluorometric determinations of serum lipids on thin-layer chromatograms: <i>F. Damgaard-Pedersen & C. Lykkelund</i>	389
Decreased alanine aminotransferase activity in serum of man during γ -acetylenic-GABA treatment: <i>R. Olsen & M. Hørdér</i>	393

No. 5

Rate of angiotensin II generation within the human pulmonary vascular bed: <i>J. Giese, A. M. Kappelgaard, K. H. Tønnesen & J. O. Lund</i>	397
Plasma cortisol, androstenedione, testosterone and luteinizing hormone in running exercise of different intensities: <i>K. Kuoppasalmi, H. Näveri, M. Härkönen & H. Adlercreutz</i> ...	403
Plasma testosterone and sex-hormone-binding globulin capacity in physical exercise: <i>K. Kuoppasalmi</i>	411
Increased plasma noradrenaline concentration in patients with chronic obstructive lung disease: relation to haemodynamics and blood gases: <i>J. H. Henriksen, N. J. Christensen, A. Kok-Jansen & I. Christiansen</i>	419
Cardiovascular function and the renin-angiotensin-aldosterone system in long-distance runners during various training periods: <i>K. Kosunen, A. Pakarinen, K. Kuoppasalmi, H. Näveri, S. Rehunen, C. G. Standerskjöld-Nordenstam, M. Härkönen & H. Adlercreutz</i> ...	429
Assessment of cerebral injury with spinal fluid creatine kinase (CSF-CK) in patients after cardiac resuscitation: <i>J. K. Kjekshus, P. Vaagenes & Ø. Hetland</i>	437
Determination of cardiac output from pulse pressure contour during intra-aortic balloon pumping: <i>J. Hoie</i>	445
Quantitation of human serum apolipoprotein A-I by electroimmunoassay. Studies on some techniques for standardization of the assay and determination of serum apolipoprotein A-I levels in a random population sample of middle-aged men: <i>G. Fager, O. Wiklund S.-O. Olofsson, P.-I. Norfeldt, A. Vedin & G. Bondjers</i>	451
Body composition. Prediction of normal body potassium, body water and body fat in adults on the basis of body height, body weight and age: <i>Å. Bruce, M. Andersson, B. Arvidsson & B. Isaksson</i>	461
The effect of secretin on renal haemodynamics in man: <i>H. L. Waldum, J. A. Sundsfjord, U. Aanstad & P. G. Burhol</i>	475
Oral glucose increases urinary albumin excretion in normal subjects but not in insulin-dependent diabetics: <i>L. Hegedüs, N. J. Christensen, C. E. Mogensen & H. J. G. Gundersen</i>	479

Technical Notes

Determination of serum-phosphate without deproteinization by ultraviolet spectrophotometry of the phosphomolybdic acid complex: <i>O. Gamst & K. Try</i>	483
Aseptic isolation of human complement component C3 for <i>in vivo</i> studies: <i>L. Brinch & I. Aakesson</i>	487
Background correction factors in renography with single probe detectors: <i>A. Rabøl & O. Munck</i>	491

No. 6

Intraperitoneal pressure: ascitic fluid and splanchnic vascular pressures, and their role in prevention and formation of ascites: <i>J. H. Henriksen, J. G. Stage, P. Schlichting and K. Winkler</i>	493
Filtration as the main transport mechanism of protein exchange between plasma and the peritoneal cavity in hepatic cirrhosis: <i>J. H. Henriksen, N. A. Lassen, H.-H. Parving & K. Winkler</i>	503
Variability of hydrostatic hepatic vein and ascitic fluid pressure, and of plasma and ascitic fluid colloid osmotic pressure in patients with liver cirrhosis: <i>J. H. Henriksen</i>	515
A high affinity folate binding protein in umbilical cord serum: <i>J. Holm, S. I. Hansen & J. Lyngbye</i>	523
Use of isotope dilution—mass spectrometry for accuracy control of different routine methods used in clinical chemistry: <i>I. Björkhem, R. Blomstrand, S. Eriksson, O. Falk, A. Kallner, L. Svensson & G. Ohman</i>	529
Skin perfusion pressure on the legs measured as the external pressure required for skin reddening after blanching: a photo-electric technique compared to isotope washout: <i>P. Holstein, P. E. Nielsen, P. Lund, F. Gyntelberg & H. Lonsmann Poulsen</i>	535
Excretion of casts and uromucoid in urine after prolonged heavy exercise: <i>H. Haugen, I. Akesson, S. B. Strømme & H. E. Refsum</i>	545
Determination of plasma inorganic iodine by neutron activation analysis after ultrafiltration: <i>H. S. Aabech & E. Steinnes</i>	551
Determination of urinary cholic and chenodeoxycholic acid conjugates with radioimmunoassay: <i>K. Samuelson & A. Eklund</i>	555
Limits of performance for measurement of blood haemoglobin concentration, number concentration of erythrocytes, and erythrocyte volume fraction in interlaboratory trials: Results of the Finnish proficiency testing programme in haematology: <i>A. Rajamäki</i> ...	563
A simple single injection method for determination of the extracellular fluid volume: <i>J. Brøchner-Mortensen</i>	567
Myocardial citrate metabolism in control subjects and patients with coronary artery disease: <i>T. Toftegaard Nielsen, P. Henningsen, J. P. Bagger, P. E. Bloch Thomsen & K. Eyjolfsson</i> ...	575
Microcalorimetric measurement of heat production in isolated human adipocytes: <i>M. Monti, P. Nilsson-Ehle, R. Sörbis & I. Wadsö</i>	581

No. 7

Editorial

All cis-5,8,11,14,17 eicosapentaenoic acid and triene prostaglandins: potential anti-thrombotic agents: <i>J. Dyerberg & H. O. Bang</i>	589
Excretion of bile acids in healthy children and children with cystic fibrosis: <i>A. Eklund, A. Norman & B. Strandvik</i>	595
Serum ferritin in the elderly: <i>I. Qvist, Å. Nordén & T. Olofsson</i>	609
Effects of posture on concentrations of blood constituents in healthy adults: practical application of blood specimen collection procedures recommended by the Scandinavian Committee on Reference Values: <i>P. Felding, N. Tryding, P. Hyltoft Petersen & M. Hørdér</i> ...	615
Effects of posture on concentrations of serum proteins in healthy adults: dependence on the molecular size of proteins: <i>P. Hyltoft Petersen, P. Felding, M. Hørdér & N. Tryding</i> ...	623
Serum lipids, arterial blood pressure and body weight in relation to the menopause: results from a population study of women in Göteborg, Sweden: <i>O. Lindquist & C. Bengtsson</i> ...	629
An automated turbidimetric immunoassay for plasma proteins: <i>K. Bergström & A. K. Lefvert</i> ...	637
Solid phase ELISA for serum ferritin: <i>M. Page, L. Thériault & M. Nilsson</i>	641
Diagnostic correctness of distal blood pressure measurements in patients with arterial insufficiency: <i>J. H. Eickhoff & H. C. Engell</i>	647
Measurement of bone mineral content (BMC) of lumbar spine, I. Theory and application of a new two-dimensional dual-photon attenuation method: <i>B. Krølner & S. Pors Nielsen</i> ...	653
Measurement of bone mineral content (BMC) of the lumbar spine, II. Correlation between forearm BMC and lumbar spine BMC: <i>B. Krølner, S. Pors Nielsen, B. Lund, B. Lund, O. H. Sørensen & A. Uhrenholdt</i>	665
A lack of esterification of lanosterol and other methyl sterols in human serum <i>in vitro</i> : <i>R. S. Tilvis & T. A. Miettinen</i>	671
Prevalence of ECG findings in 18-19 year old Swedish men: <i>J.-H. Atterhög, B. Furberg, V. Malmfors & L. Kaijser</i>	675

Technical Note

Thermostatted measurement of systolic blood pressure on cooled fingers: <i>S. L. Nielsen, C. J. Sørensen & N. Olsen</i>	683
--	-----

No. 8

Editorial

Determinants of abnormal renal sodium handling in cirrhosis: a reappraisal: <i>Murray Epstein</i> ...	689
Renal function and body composition before and after intestinal bypass operation in obese people: <i>J. Brøchner-Mortensen, H. Rickers & I. Balslev</i> ...	695
Fibrin formation induced in agarose gel in the presence of plasma by sera from patients with certain diseases: <i>J. V. R. Berg, G. M. Einarsson & L.-O. Andersson</i> ...	703
Purification of human lung angiotensin-converting enzyme: <i>C. Grønhagen-Riska & F. Fyhrquist</i> ...	711
Protein synthesis in hyperfunctioning human thyroid tissue: <i>B. Anderberg, J. Gillquist & S. Smeds</i> ...	721
The importance of lysozyme for the viscosity of sputum from patients with chronic obstructive lung disease: <i>A. O. Jenssen, O. Smidsrød & O. Harbitz</i> ...	727
Limb circulation in normal subjects and in subjects with chemical or mild diabetes mellitus: its relation to sex, age, body weight, glucose tolerance, insulin response and insulin sensitivity: <i>B. Berglund</i> ...	733
Binding of urokinase to plasma proteinase inhibitors: <i>L. Holmberg, I. Lecander & B. Åstedt</i> ...	743
Cardiovascular reflexes in short-term diabetics with normal physical working capacity: <i>B. Berglund, A. Wajngot, U. Freyschuss, G. Milentiević & S. Ejendic</i> ...	749
Effect of arterial and venous pressures on transcutaneous oxygen tension: <i>J. H. Eickhoff, S. Ishihara & E. Jacobsen</i> ...	755
Correlation of transcutaneous oxygen tension to blood flow in heated skin: <i>J. H. Eickhoff & E. Jacobsen</i> ...	761
Effect of anticonvulsant and antidepressant drugs on iodothyronines in serum: <i>K. Liewendahl, T. Helenius, H. Majuri, P. Ebeling & U. G. Ahlfors</i> ...	767
Exercise electrocardiogram in patients with normal and abnormal coronary arteriogram: <i>R. Jonasson, C. Landou & E. Orinius</i> ...	775
The production of ^{14}CO following the administration of 2- ^{14}C glycine in normal subjects determined by an oxygen washout technique: <i>J. Lindahl</i> ...	783
Significance of primary T wave aberrations in the electrocardiogram of asymptomatic young men, III. Systolic time intervals and autonomic tone: <i>J.-H. Atterhög & L.-G. Ekelund</i> ...	795

Technical Note

Binding of the chromium-ethylenediaminetetraacetic acid complex (CrEDTA) to human albumin: <i>N. Fogh-Andersen</i> ...	805
